ABOUT ME

Business Statistics graduate with experience in business analytics, market research, and data-driven problem solving. Skilled in Excel, SQL, Python, and BI tools for analyzing, segmenting, visualizing, and reporting business data. Experienced in generating actionable insights and recommendations to support sales performance, operational improvement, and strategic decision-making. Eager to learn, adapt, and deliver my best in every responsibility.

EDUCATION

Applied Bachelor's Degree of Business Statistics, Institut Teknologi Sepuluh Nopember (ITS) **2022 - 2026**

- GPA : 3.38/4.00.
- Thesis: *Development of an Analytical Dashboard for Topic Modelling Using LDA and Sentiment Classification Using Bi-LSTM on FlyGaruda Application User Reviews*
- Relevant Coursework : Computer Programming, Statistical Computing, Database Management System, Data Exploration and Visualization, Unstructured Data Methods, Machine Learning, and Social and Business Research.

Mathematics and Natural Science, SMAN 5 Kota Bogor **2018 - 2021**

WORK EXPERIENCE

Market Insight Officer | PT. Lion Express - Lion Parcel **July - Present**
Kedoya, West Jakarta, Indonesia

- Developed an automated data processing dashboard, improving workflow efficiency by 85% and accelerating data analysis and reporting for cross-functional stakeholders.
- Conducted 3 strategic research projects, analyzing competitor and market data to identify performance gaps, business opportunities, and actionable insights.
- Managed end-to-end ad-hoc market research for brand events, analyzing customer data by geographic area from survey results to identify regional patterns and support performance improvement.
- Supported research analysis by mapping respondents' residential locations against the nearest brand locations to assess geographic proximity and identify potential market patterns.

Market Insight Intern | PT. Lion Express - Lion Parcel **March - July**
Kedoya, West Jakarta, Indonesia

- Analyzed quarterly Customer Satisfaction (CSAT) data using Python and creating clear reports and business insights to support strategic decisions across departments.
- Managed the end-to-end process of an ad-hoc research project to evaluate a national agent competition program, identifying areas for improvement and recommending strategies to boost agent engagement.
- Analyzed qualitative feedback from customers, agents, and internal teams to identify operational issues and recommend continuous service improvements.
- Reviewed Brand Health Tracking (BHT) reports in collaboration with external vendors to understand consumer perception and support market positioning.

- Mentored 36 students through 10 practicum assignments and 4 final projects focused on industry-relevant database implementation using DBeaver and PostgreSQL.
- Evaluated and graded 10 practicum assignments for 36 students, ensuring 85% accuracy and timely feedback.
- Elevated student comprehension of SQL queries and database design, resulting in an average practicum score of over 85.
- Monitored and reported weekly student progress to the lecturer, summarizing assignment performance, learning progress, and areas requiring further attention.

Internship | Marketing Division | Dinas Kebudayaan & Pariwisata Jawa Timur
Surabaya, East Java, Indonesia

January - February 2025

- Designed and developed content for the "Travel Pattern Mojokerto Version" tourism brochure using Canva.
- Analyzed and visualized tourism data for East Java by creating a comprehensive dashboard in Google Looker Studio, successfully delivering the project within an 8-day deadline.
- Served as a tour guide for 360 participants in the Muslimat NU event, leading a one-day cultural tour to Wali Songo destinations in East Java.
- Managed cruise ship data entry for vessels arriving at Tanjung Perak Port, Surabaya, while validating data accuracy and completeness to ensure reliable reporting.

PROJECT EXPERIENCE

Sentiment Analysis of Customer Review Insights : Mills Running Shoes on Tokopedia

October 2025

- Self Project
- Collected customer review data for five Mills running shoes products in different color variants from Tokopedia using Selenium and BeautifulSoup4.
 - Performed data cleaning and simple text preprocessing (e.g., removing irrelevant rows, extracting product names from URLs, separating ratings and dates) to enhance text consistency and analysis quality.
 - Manually labeled sentiment and aspect categories to handle diverse language usage in reviews.
 - Conducted EDA to identify customer sentiment and perspectives toward Mills’ technology enhanced running shoes using Python (pandas, matplotlib, seaborn).

Customer Churn Prediction Dashboard Using Gradient Boosting Techniques

August - September 2025

- Self Project
- Conducted comprehensive data examination and preprocessing, including missing value detection, outlier identification, class imbalance analysis, feature selection, feature importance evaluation, and label encoding.
 - Evaluated Gradient Boosting models (XGBoost v0.2 and LightGBM v4.6.0) on datasets with and without missing values handled using KNN Imputer to assess model robustness.
 - Built an interactive Streamlit dashboard consisting of multiple pages (Home, About Me, Overview, and Predict It) to visualize insights and model performance.
 - Deployed the best model on the “Predict It” page to allow users to input customer characteristics and predict churn probability in real time.

Analysis Fear of Missing Out (FOMO) and Digital Marketing on Purchase Decision of Products at Sociolla Royal Plaza Surabaya Using SEM-PLS Method

April - June 2025

- Group Collage Project
- Designed and distributed survey questionnaires to 100 Sociolla Royal Plaza customers over one week to collect primary data on purchasing behavior.
 - Conducted Exploratory Data Analysis (EDA) to examine customer demographics, shopping habits, and key factors influencing purchase decisions.
 - Performed Partial Least Squares Structural Equation Modeling (PLS-SEM) using SmartPLS 4 to evaluate the relationship between FOMO, digital marketing, and purchase decisions.

ORGANIZATION & LEADERSHIP EXPERIENCE

Assistant Treasurer | Students Islamic Boarding House Khoirul Huda 3 Surabaya

April 2022 - May 2025

Surabaya, East Java, Indonesia

- Managed and reconciled monthly dormitory payments from 80+ students, ensuring 100% accuracy and timeliness.
- Processed and monitored a monthly cash flow of over IDR 60 million, covering student fees, dormitory funds, and meal allowances using Microsoft Excel.
- Generated and presented monthly financial reports to dormitory management, enhancing transparency and accountability.

Project Leader | Course : “Supply Chain Management” | Institut Teknologi Sepuluh Nopember

September - November 2024

Surabaya, East Java, Indonesia

- Coordinated and communicated with external stakeholders (PT. Sunrise Steel Mojokerto) to align project goals and ensure timely deliverables.
- Led a team of 6 to design and execute a project plan, successfully achieving 100% of project milestones on schedule.
- Authored and presented progress and accountability reports to faculty supervisors and stakeholders, resulting in immediate approval with zero requests for revision.
